\$125,000.00 AUTO ACCIDENT RECOVERY

The Law Offices of Justin G. Morgan, P.A. recently recovered \$125,000.00 for our client whose car was sideswiped on I-95 causing damages to the vehicle and neck and shoulder injuries to our client. Our client was driving on I-95 within the legal speed limit when a car approached her vehicle at a higher rate of speed, and from nowhere, sideswiped her car causing immediate damage.

Initially, the insurance company for the other vehicle denied liability for the accident, claiming that it was the fault of our client. They claimed that our client was the car that caused the accident, and that our client had sideswiped her car and was at fault. Normally, this would be a difficult case of “he said, she said”. However, **The Law Offices of Justin G. Morgan, P.A.** aggressively investigated this incident. During the course of our investigation, we discovered that the other driver was impaired on drugs at the time of the accident, which caused the other insurance company to accept liability for the accident. Our client had sustained neck and shoulder injuries due to the accident, and had a cortisone injection to her shoulder to relieve her pain.

Prior to the filing of a lawsuit, at a pre-suit mediation, **The Law Offices of Justin G. Morgan, P.A.**, negotiated our client’s claim for bodily injury policy limits of \$100,000.00 from the at fault driver, and \$25,000.00 underinsured motorists policy limits from our own client’s insurance company. The \$125,000.00 policy limits recovery was made within four months from the date of the accident. The speed and carefulness in which **The Law Offices of Justin G. Morgan, P.A.** settled this case, recognizes the thorough investigation

that the firm pursues in all of its cases. The firm, through its thorough investigation revealed that our client had purchased underinsured motorist insurance coverage from her own insurance company.

Insurance companies routinely delay and deny benefits to injured parties. Many times they claim that injures occurred prior to the accident in question. When the insurance company was presented with the facts of their clients drug condition at mediation, they immediately settled the case in favor of our client. Attorney Justin G. Morgan prides himself in his hard work, investigative experience, and attentiveness to each individual detail. Every case is unique and insurance companies are well-known to attempt to minimize monetary damages to save money for themselves and not our deserving clients.

If you have been injured as a result of someone else’s negligence, do not let an insurance company tell you have no legal rights to compensation for you injuries. Call **The Law Offices of Justin G. Morgan, P.A.** and ask for a complimentary, confidential review of your matter. Attorney Justin G. Morgan never charges for consultation and is available at his office or your home for this review. Whether your case is settled or goes to court, you can be assured that **The Law Offices of Justin G. Morgan, P.A.** has worked hard to obtain the maximum possible amount of damages for your case.

FLORIDA SUPREME COURT OVERTURNS WRONGFUL DEATH LIMITATION FOR NON ECONOMIC DAMAGES

The Law Offices of Justin G. Morgan, P.A. wants to announce to its clients an important ruling by the Florida Supreme Court restoring their rights in wrongful death and medical malpractice tragedies. The 2003 law passed by the Florida Legislature limited the amount of non economic damages the remaining family members would receive because of the negligence and malpractice of doctors and or hospitals. The amount capped the damages for all remaining members of the family between \$500,000 and a maximum of \$1,000,000, and this was overturned.

This important decision by the Florida Supreme Court reiterated that the law was unfair and did not justify the legislation. The decision was 5-2 in favor of declaring the law unconstitutional. This legislation was backed by doctors, insurance companies, and former Governor Jeb Bush whose rationality for the law was that no action would raise insurance rates and drive doctors from the State of Florida. However, none of this happened, and the number of doctors has increased significantly in the state and insurance rates have not decreased because of this law.

The tragic death in 2006 of Michelle McCall because of her wrongful death in a Florida hospital caused her attorney to appeal the decision of a Florida District Court who awarded her family \$1,000,000 because of her wrongful death. The court declared that it wanted to award her family \$2,000,000 but could not because legislation prevented them from awarding the amount they deemed appropriate. Her two parents and her son were the remaining heirs of her estate. The McCall family appealed this decision to the Florida Supreme Court, and after years of litigation were found to be correct on March 13, 2014 when the court ruled in their favor.

The Law Offices of Justin G. Morgan, P.A. recognizes the importance of informing its clients about changes in Florida law.
